# HTPA16x16dR3

## HTPA16x16dR3 Change Notification

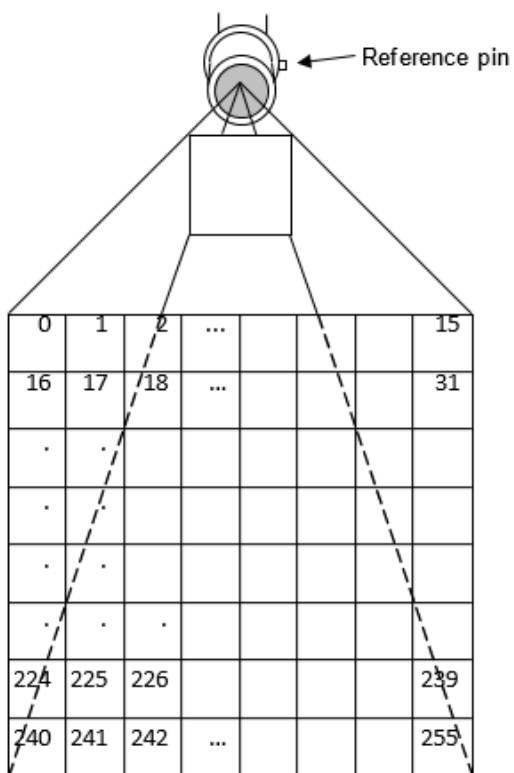

This document is supposed to give a quick overview about changes that have been done between Sensor-Revision 2 and 3.

The following changes were made for Sensor-Revision 3:

1. Pixel orientation is mirrored on the vertical axis as shown under **Change in Pixel Orientation** below.
2. Two *Ambient Temperature Compensation Pixels*, called ATC1 and ATC2 were added. This changes the data read-out order. Please refer to the 16x16dR3 datasheet for more details.

### Change in Pixel Orientation

16x16d Rev. 2

new 16x16d Rev. 3
